Trailer Plates

Designed to protect HGVs and the loading zone floor, ensuring an even and supported surface for trailer landing legs.

Surface-mounted or recessed, Trailer Plates are simple to install, eliminating uneven yard surfaces which could compromise health and safety.

Engineered for performance

Huge return on investment from downtime avoidance as service yard floors do not need repair after repeat wear-and-tear.

Self coloured and UV stabilised for continued high visibility and long lasting aesthetics with no repainting.

Ultra-low maintenance material is chemical and water resistant, non-corrosive, non-scratch and self coloured so no repainting, rusting, flaking or corrosion.

Environmentally friendly and 100% recyclable.
