

A-SAFE

Est. 1984

Sign Board

Designed to support operational requirements and traffic management needs.

Integrated sign boards enable warnings, hazards, regulatory information and safety messages to be prominently displayed to workforce and visiting personnel.

Code of Practice for Workplace Safety Barriers

PAS13
2017

Engineered for performance

Self coloured and UV stabilised for continued high visibility and long lasting aesthetics with no repainting.

H&S compliance is emphasised to ensure workforce and visitors are aware of safety procedures in required locations.

Easily integrated with pedestrian barriers, and combined traffic and pedestrian solutions.
